

Since 1991
Romtes is focused
on live fire
training solutions
for shooting
ranges.

Using its SCT Pro revolutionary patented technology, Romtes enables its client's mobility during training, saving them training time and ammunition; all the while increasing range safety and more effective training sessions with up to **8 scoring zones**.

Patented

THE SCT PRO IS A WIRELESS SYSTEM THAT INCLUDES:

The SCT Pro can be used with interchangeable targets for all type of shooters, military, LE, recreational or sport shooters. Without doubt the SCT Pro is for one and all.

- A robust personal display for registering hits
- A fully mobile lightweight stand
- Patented easy release locking arm
- A System Protection Armor plate (Included)
- A Rubber ricochet protection (Optional)

TRAINING BENEFITS OF THE SCT TECHNOLOGY:

-  **SAFETY** | Reduced need to cross the firing line.
-  **INSTANT FEEDBACK** | With up to **8 scoring zones**, it enables immediate correction and results
-  **MOBILITY** | Lightweight, wireless, easy to operate and relocate.
-  **FLEXIBILITY** | For any shooter, tactical, sport or recreational.
-  **VERSATILITY** | Any caliber, rifle, weather conditions, and range up to 1700yards
-  **RELIABILITY** | 98% Accuracy and only direct hits (no ricochets or other interferences) are recorded.
-  **TIME EFFICIENT** | Quick setup (less than 5 minutes) therefore Less 'cold' range time.

SCT FEATURES INCLUDE:

-  **DATABASE** | Continuous shooting skill monitoring.
-  **DURABILITY** | Target system does not need replacing.
-  **COST EFFECTIVE** | Each target can take between 600-800 hits on average.
-  **MORE TRAINING** | Less time spent on logistics, therefore more time shooting at the range.
-  **ROBUST** | Durable and robust construction.
-  **PRACTICAL** | The SCT Pro can be both standalone or fixed to multiple configurations for scenario-based multi-purpose training.

ADDITIONAL LIST OF SERVICES PROVIDED BY ROMTES:

RANGE DESIGN & CONSTRUCTION:

All in all, Romtes Technologies has over thirty years of experience in range development. This includes the design, engineering, and installation of live-fire ranges. Romtes additionally design combat training centers, and multi-level CQB shoot houses. The Romtes team includes both military and law enforcement officers with both unrivalled tactical and operational expertise. In addition, together with both engineers and technicians they combine both practical and innovative vision to the range design.

TRAINING:

With more than 45 years of firearm instructor training experience, Romtes now offers customized training, delivered worldwide. Training programs include Family Safe Action, Advanced First Responders, Corporate Team building, Dim light shooting, and training for Junior or Cadet Shooters. The training programs range for a few hours to a few days, depending on the clients need.
