

RUBBER DUMMIES

REALISTIC & DURABLE TRAINING TARGETS

Rubber Dummies offer a realistic 3D silhouette target, used extensively by law enforcement and shooters worldwide.

Made in the U.S.A. with a self-healing design, Rubber Dummies endure **thousands of rounds** while maintaining structural integrity.

Safer than steel and more durable than paper, they excel in close-quarter drills, movement exercises, and long-distance training with instant visual feedback.

PRODUCT FEATURES:

- Designed for tactical drills, from point-blank to long-range training
- Compatible with Mr Target reactive steel targets and accessories
- Multiple base options available
- thousands of rounds
- Standard 13cm and Extended (EP) 18cm Profiles
- Works with all firearms, edged weapons, CQB, and less-lethal tools
- Clear instant shot placement feedback with visible hit indication
- Tool free setup in seconds
- Real-world 3D engagement from all angles
